profile

I am a front-end web developer who values strong communication and collaboration. As a musician I have learned to integrate artistic creativity with fastidious attention to detail, skills which support my innovation of quality web products that are accessible and user-focused.

skills

HTML5 | CSS3 | Sass | JavaScript | React | Firebase | jQuery | Responsive Design
Web Accessibility | Git/Git Collaboration | PSD Conversion | API Integration
Wordpress | PHP | Shopify | Liquid

education

projects

wannaWatch   **React || Firebase**

So many shows, so little time…Keep track of the shows you want to watch with
wannaWatch!   Live Link | Code

Movies A - Z   **JavaScript || API Integration**

A paired programming project which tests the users ability to name a "better" movie than
the one provided (using imdb ratings).   Live Link | Code

Seinfeld-Who Said It!   **HTML | JavaScript | jQuery**

A simple and fun quote guessing game for the true Sein-heads of the world. Race the clock
to get it right and don't let Babu wag his finger at you! Live Link | Code
